

Doyle's Dialogue

Theme: Antarctica

Date: January 11th-15th

The K2 Preview

Be sure to pack your Parkas for school because we are headed to the coldest place on Earth, Antarctica. The continent that is covered with ice that is more than a mile thick provides us with lots of chilly experiments. We will test who can melt ice the fastest and devices that Arctic animals engage to keep warm. With a permanent population of 1, we will spend lots of time studying the wildlife!

Language Arts: site words: good, get, who, saw; word family: -ash (bash, stash, etc); children's theater productions, classifying words, endmarks, descriptive sentences

Math: writing numerals to 70, simple word problems, directional words, halves, tallies, counting coins, patterns, math facts

Social Studies: Antarctica's land features, and animals

Doyle's Details

January 14th - Second Quarter Report
Cards Issued

January 14th - Primary School Open House
at 5:00 pm

January 18th and 19th - Primary School
Closed: Holiday Camp Available

Practice at Home

All homework is due on Friday.

For language, your child will complete an activity on Antarctica. They will trace and write the word Antarctica. Then, they will complete a maze leading the penguin to the iceberg. The second activity requires your child to read two sentences and circle the sentence that correctly describes the picture.

In math, your child will identify the ten spot and the one spot to count the fruits and vegetables. The second activity requires your child to solve simple subtraction problems to see how many animals the zookeeper needs.

In addition to these pages, please have your child read his/her individual baggie book each night. Also, make a set of site words for your child and review them nightly. Our site words this week are : good, get, who, saw, and -ash words (bash, stash, etc.).

Bananas and cocoa are the two leading exports of South America. James tried cocoa powder and decided it was not good!
